Subject: Street Acceptance Petition for Moser/Musante/Olander

Mary-

Here is the petition that came in November for these streets. I always thought the process was that it goes to review by Department of Public Works and Office of Planning and Development before Council gets it. But I think officially it is supposed to get referred out first by Council. IF that is the case, could you put this on the agenda so that it officially gets referred out even though the Office of Planning and Development and Department of Public Works have already been under review?

Thanks
Carolyn
